

Durair II

by DURAVALVE

PNEUMATIC ACTUATORS

Rack & Pinion Design
for Rotary Valves

Durair II PNEUMATIC ACTUATORS

Features

EXTENDED CYCLE LIFE

(1 million cycles)

- Low Friction Bearings
- Polished Bore
- Precision Machined Gears
- Epoxy Coated Springs
- Dry or Lubricated Air

EXTERIOR COATINGS

- Tested to ASTM B117-73 (500 hrs. salt spray)
- Anodized body (ASTM 6063) or nickel plated
- End covers; epoxy-polyester coated or nickel plated

MOUNTING STYLES

- NAMUR dimensions for accessories
- ISO dimensions for valve mounting
- Shaft variations available for direct mounting
- Female star drive output shaft
- Independent travel stops $\pm 4^\circ$ each direction

SAFETY

- Precompressed spring cartridge
- Blowout proof shaft
- Visual indicator

SPECIFICATIONS

- Operating Pressure: 40 to 120 psig
- Temperature (normal operating): - 4° F to 180° F
- Media: Dry or lubricated air;
non-corrosive and inert gas;
light hydraulic oil
- Lubrication: Factory lubricated for normal lifetime
- Rotation: 90°

ACCESSORIES

- Limit Switch
- Positioner
- Solenoid Valve

All are factory installed and tested to manufacturer's specification.

OPERATION

Double Acting (Top View)

Spring Return (Top View)

Air supplied to Port A forces pistons apart and toward end positions with exhaust air exiting at Port B (a counter-clockwise rotation is obtained).

Air supplied to Port B forces pistons toward center with exhaust air exiting at Port A (A clockwise rotation is obtained).

Air supplied to Port A forces pistons apart and toward end position, compressing springs. Exhaust air exits at Port B (A counter-clockwise rotation is obtained).

Air or electric failure allows springs to force pistons toward center position with exhaust air exiting at Port A (A clockwise rotation is obtained).

Durair II PNEUMATIC ACTUATORS

DURAVALVE MANUAL AND ACTUATED VALVES

DuraValve is a quality supplier of brass and stainless steel ball valves, butterfly valves, pneumatic and electric actuators and actuated assemblies.

The DuraValve direct mount style ball valve, with it's superior stem seal design, provides long cycle life when mounted to the DurairII Pneumatic Actuator or DuraValve Electric Actuator.

DuraValve provides precision made mounting kits for non-direct mount style valves that assure proper valve to actuator alignment.

DuraValve's design provides Namur Connections for limit switches, solenoids, positioners and other accessories.

Supported by a dedicated team of highly experienced professionals, you will benefit from many years of successful industrial valve experience. DuraValve offers excellent engineering/technical support and superior customer service. DuraValve provides you with a reliable, readily available product for a broad range of operating environments, at a competitive price.

Note: The right is reserved to change or modify product design or construction without prior notice and without incurring any obligation to make such changes or modifications on products previously or subsequently sold.
